DATA REQUEST SET G P I - S C E - 2 0 2 5 W M P - 0 1

To: GPI
Prepared by: Napa Tayavibul
Job Title: Senior Advisor
Received Date: 4/26/2024

Response Date: 5/1/2024

Question 03:

Please provide a summary of any developments since the 2023 meeting and working sessions towards initiating a Joint IOU scoping study on best practices and efficacy of fuels management, including but not limited to planned topics for inclusion in the scoping study.

[1] SDG&E 2025 WMP Update, April 2, 2024, pp. 52-53

[2] SDG&E 2025 WMP Update, April 2, 2024, pp. 52-53

Response to Question 03:

In 2023, SCE participated in working sessions with other IOUs, including SDG&E and PG&E, to discuss how debris cleanup is conducted at each IOU. Specifically, the IOUs discussed various approaches/strategies and related requirements, benefits, and constraints. SCE is currently exploring ways to evolve its debris management practices and potential costs.

SCE clarifies that SDG&E's 2025 WMP Update, pg. 53 discusses "initial collaboration on a *possible* scoping study on best practices and efficacy of fuels management" (emphasis added). At this point, SCE has not initiated a scoping study specifically for debris management.
