

Southern California Edison
2022-WMPs – 2022 Wildfire Mitigation Plan Updates

DATA REQUEST SET CalAdvocates - SCE - 2022WMP - 07

To: Cal Advocates
Prepared by: Raymond Fugere
Job Title: Principal Manager
Received Date: 3/10/2022

Response Date: 3/15/2022

Question 09:

Identify any ignitions in 2021 associated with assets where SCE had an existing maintenance tag at the time of the ignition. Please provide a spreadsheet listing each such ignition (as rows) with the following columns:

- a) Unique ignition ID
- b) Date of ignition
- c) Cause of ignition
- d) Type of asset associated with the ignition
- e) Acres burned
- f) Structures burned, if any
- g) Injuries associated with ignition, if any
- h) Asset ID of asset associated with ignition
- i) Circuit ID number of circuit associated with ignition
- j) Notification number(s) for the existing maintenance tag on the asset in question

Response to Question 09:

The attached spreadsheet entitled *CalAdvocates-SCE-2022WMP-07-Q9_Response.xlsx* contains fires that meet either the criteria specified in CPUC Decision 14-02-015 or CPUC resolution E-4184. Please note that the notifications listed are all maintenance notifications contained in SCE's system of record that were pending on the structures at the time of the event. The information contained in the attached spreadsheet is based on the information currently known and subject to change. Please note that the ignitions may still be under investigation and the inclusion of any ignition does not mean that the notification was necessarily associated with such ignition. Rather, the inclusion of such ignition is based on SCE's record of asset number associated with an ignition and SCE is providing open notifications for such ignitions based upon SCE's system of record.
