**Response to Question 02.a:**

Please see the attached file titled *OEIS-P-WMP\_2025-SCE-002a Table.xlsx*.

In preparing the additional columns requested to supplement Table 6-4, SCE discovered certain instances where "Initiative Activities" listed for a particular circuit did not match scoped miles for either targeted undergrounding (TUG) or covered conductor (CC) mitigations. SCE has made corrections in the table produced in response to this data request and will make corresponding updates to Table 6-4 in the WMP as part of its filing of substantive errata on June 2, 2025. Changes are denoted in red text in the attached file.
