Response to Question 001:

As part of SCE's Structure Brushing program, SCE removes vegetation around select poles and structures. Below, SCE provides information on the poles included in SCE's Structure Brushing scope in 2022-2024 that were located in the requested areas. The number of cleared poles indicates poles where clearance was completed; this does not include poles on environmental hold, or attempts where the pole was inaccessible, no structure was found, or no clearance was required (e.g., no vegetation at time of inspection).
