**Subject: Kern River No. 1 Hydroelectric Project, FERC Project No. 1930-090
Final License Application**

Dear Secretary Reese:

Southern California Edison (SCE) is pleased to file the enclosed Application for License for Major Project—Existing Dam (License Application or FLA) for the Kern River No. 1 Hydroelectric Project (Project), Federal Energy Regulatory Commission (FERC) Project No. 1930. The attached FLA complies with the requirements set forth in Section 15(c)(1) of the Federal Power Act¹ and Sections 5.17(a) and 5.18 of FERC’s Integrated Licensing Process regulations.²

The Project is a 26.3-megawatt run-of-river project located on the lower Kern River on the western slope of the Sierra Nevada, approximately 15 miles east of the City of Bakersfield in Kern County, California. The Project occupies federal lands within the Sequoia National Forest, administered by the United States Forest Service and includes a diversion dam and impoundment, water conveyance system, powerhouse, access roads and trails, communication and power lines, gaging stations, and ancillary/support facilities.

SCE operates the Project under a 30-year license that was issued by FERC on June 16, 1998, and which expires on May 31, 2028.³ As part of its relicensing proposal, as set forth in the attached FLA, SCE is seeking a new 50-year license for its continued operations and maintenance of the Project.

SCE initiated the relicensing effort by filing its Notice of Intent and Pre-Application Document with FERC on May 5, 2023.⁴ After a multi-year relicensing effort by SCE, federal and state resource agencies, Native American Tribes, non-governmental organizations, and interested members of the public (collectively referred to as “stakeholders”), SCE filed its Draft License

Application (DLA) with FERC on December 18, 2025.⁵ As discussed below, the FLA responds to comments filed by stakeholders in response to the DLA.

The FLA was prepared in accordance with applicable content requirements set forth in Sections 4.51 and 5.18 of FERC regulations.⁶ This filing is comprised of four volumes as described below. A fifth volume (Volume V, Confidential Cultural Resources Information) will be filed with FERC following stakeholder review.

Volume I (Public)	Initial Statement General Content Requirements Exhibit A, Description of the Project Exhibit B, Project Operation and Resource Utilization Exhibit C, Construction History Exhibit D, Project Costs and Financing Exhibit G, Project Maps Exhibit H, Project Need and Key Information
Volume II (Public)	Exhibit E, Environmental Exhibit (Part 1) Exhibit E, Supporting Documents (Part 2) Appendix E.1 Proposed Environmental Measures, Management, and Monitoring Plans Appendix E.2 Resource Technical Memorandums Appendix E.3 Draft Biological Assessment Appendix E.4 Consultation Documentation
Volume III (CUI//CEII)	Exhibit F, General Design Drawings and Supporting Information
Volume IV (CUI//PRIV)	Confidential Biological Resources Information

Public Notice of License Application and Availability for Review

As required by Section 5.17(d)(2) of FERC regulations,⁷ SCE will publish notice twice of the filing of this FLA in the Kern River Sun and the Bakersfield Californian newspapers no later than 14 days after the filing date. SCE will provide FERC with proof of publication of these notices.

As required by Section 5.2(b) of FERC regulations,⁸ public portions of the FLA are available on SCE’s relicensing website at <https://www.sce.com/regulatory/regulatory-information/hydro-licensing/kr1> and on FERC’s eLibrary system at <https://elibrary.ferc.gov/eLibrary/search> under Docket No. P-1930-090. In addition, members of the public without internet access may review

public volumes of the FLA using computers available during regular business hours at the Kern River Valley Branch Library, located at 7054 Lake Isabella Boulevard, Lake Isabella, California 93240 or the Beale Memorial Library, located at 701 Truxton Avenue, Bakersfield, California 93301.

Privileged, Confidential, and Critical Energy Infrastructure Information

Volume III contains Critical Energy Infrastructure Information (CEII).⁹ This information includes sensitive and detailed engineering information that, if used incorrectly, may compromise the safety of the Project and those responsible for its proper operation. Volume III was e-filed with FERC under the “CEII tab” and is marked as “CUI/CEII–Contains Critical Energy/Electric Infrastructure Information–DO NOT RELEASE” in accordance with Commission regulation.¹⁰ Because CEII is statutorily designated as exempt from public disclosure under the Freedom of Information Act (FOIA),¹¹ SCE respectfully requests that FERC maintain this information in its non-public file in accordance with applicable regulations.

Volume IV contains information regarding the location(s) of special-status biological resources. The disclosure of this information could be harmful to these resources. Pursuant to Commission regulations,¹² SCE requests confidential treatment of this information. Volume IV was e-filed with FERC under the “privileged tab” and is marked as “CUI//PRIV–Contains Confidential Information–DO NOT RELEASE” in accordance with Commission regulation.¹³ Because this information is statutorily designated as confidential and exempt from public disclosure under the FOIA,¹⁴ SCE respectfully requests that FERC maintain this information in its non-public file in accordance with applicable regulations.

Volume V (to be filed with FERC following stakeholder review) will include the Technical Study Reports for cultural and Tribal resources and the Historic Properties Management Plan once they are complete. These documents contain information regarding the location and character of sensitive cultural resources. The disclosure of this information could be harmful to these resources. Documents that will be included within Volume 5 will be filed in FERC’s non-public file as privileged and confidential information. Pursuant to Commission regulation,¹⁵ SCE requests confidential treatment of this information. Volume V was e-filed with FERC under the “privileged tab” and is marked as “CUI//PRIV–Contains Confidential Information–DO NOT RELEASE” in accordance with Commission regulation.¹⁶ Because this information is statutorily

designated as confidential¹⁷ and exempt from public disclosure under the FOIA,¹⁸ SCE respectfully requests that FERC maintain this information in its non-public file.¹⁹

Conclusion

SCE appreciates the tremendous effort and commitment of FERC staff and relicensing stakeholders for their significant work to-date in the relicensing process, and looks forward to continuing work as the formal, post-filing relicensing proceeding moves forward.

Should you have any questions regarding this filing, please contact Kadi Whiteside, SCE Relicensing Project Manager, by phone at (626) 807-3641 or by e-mail at karen.whiteside@sce.com.
