

**NOTICE OF SOUTHERN CALIFORNIA EDISON COMPANY'S SUPPLEMENTAL FILING FOR SUMMER 2014
INTERIM RESIDENTIAL RATE REFORM (R.12-06-013)**

SUMMARY

On November 22, 2013, Southern California Edison Company (SCE) filed a request with the California Public Utilities Commission (CPUC), as required by Rulemaking R.12-06-013, for changes to rates for residential customers effective by the summer of 2014, as described below. SCE is proposing to better align rates with the actual costs of providing electric service to customers and to simplify rate plans.

ABOUT THE PROPOSAL

On October 7, 2013 Governor Jerry Brown signed Assembly Bill 327 (AB 327) into law. This new law authorizes the CPUC to consider several changes to California's electricity rate structure and renewable energy policies to better serve customers. SCE is requesting approval to begin the process of reforming its residential electric rate structure consistent with AB 327 by the summer of 2014. SCE's filing is part of the CPUC's efforts to explore improved residential rate design structures, which is currently being examined in R.12-06-013.

This proposed request will not change the amount of total revenues collected by SCE, which are determined in other proceedings. In its request, SCE proposes to redefine the range of usage and reduce the number of rate tiers from four tiers to three tiers on the standard residential electric rate plan (Schedule D). SCE does not propose any change to current baseline allowances, which are billed at the Tier 1 rate. However, SCE proposes to create a new Tier 2, which will combine usage in Tiers 2 and 3 as currently defined, for usage from 101% to 200% of the baseline allowance. The Tier 3 rate would apply to all usage in excess of 200% of the baseline allowance, which is currently defined as Tier 4.

If SCE's proposal is adopted, residential customers would see bill increases or bill decreases depending upon their monthly usage levels, their rate plan, and other changes in SCE's authorized revenues.

SCE proposes to provide a 30% energy rate discount to customers on the California Alternate Rates for Energy (CARE) program served on the standard CARE rate plan (Schedule D-CARE). Under SCE's proposed changes, CARE customers would continue to receive substantial overall savings compared to bills paid by non-CARE customers within the range of discounts required by law. Currently, CARE customers receive an average overall discount of 31% on their bills. With SCE's proposal to reduce the discount to 30%, a CARE customer using 600 kWhs a month will see an increase of \$4, from the current \$70 a month to \$74 a month.

HOW WILL SCE'S PROPOSAL AFFECT ME?

Most customers receive bundled electric service from SCE, meaning that we provide electric generation, transmission and distribution service. The tables below show current and projected rates and monthly bill impacts for non-CARE bundled customers and at various usage levels.

Current and Illustrative Residential Structures and Rates

Current Tiers	Nov 2013 Rates (¢/kWh)	Nov 2013 Rate Differential	Proposed Tiers	Illustrative Rates (¢/kWh)	Proposed Rate Differential
Tier 1 (Baseline)	12.8		Tier 1 (Baseline)	15.8	
Tier 2 (101% to 130% of Baseline)	16.0	1.2	Tier 2 (101% to 200% of Baseline)	20.5	1.3
Tier 3 (131% to 200% of Baseline)	26.8	2.1	Tier 2 (101% to 200% of Baseline)	20.5	1.3
Tier 4 (> 200% of Baseline)	30.8	2.4	Tier 3 (> 200% of Baseline)	25.2	1.6
Basic Charge	0.91 (\$/month)			0.91 (\$/month)	

Current and Illustrative Residential Bills

Monthly Usage (kWh)	Current Average Bill (\$/month)	Proposed Average Bill (\$/month)	Change in Bill (\$/month)	Change in Bill (%)
600	105	109	4	4
800	160	155	(5)	(4)
1400	330	296	(34)	(10)

*Actual bill impacts will vary depending on the customer’s rate plan, usage, climate zone, baseline allotment, and other changes in SCE’s authorized revenues.

CPUC PROCESS

An assigned Administrative Law Judge (ALJ) will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its Decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision determining whether to adopt all or part of SCE's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

STAY INFORMED

The CPUC offers a free Subscription Service which is available on the CPUC website at www.cpuc.ca.gov which allows you to follow this proceeding. If you would like to learn how you can participate in the proceeding, if you have informal comments, or questions about the CPUC process, you may contact the CPUC's Public Advisor's Office (PAO) at the addressed noted below. When writing, please reference proceeding R.12-06-013. All written correspondence and emails are provided to the Commissioners and the assigned ALJ for this proceeding to review.
