

NOTICE OF CONSTRUCTION

Southern California Edison's West of Devers Upgrade Project

Southern California Edison (SCE) has scheduled construction on a portion of the **West of Devers (WOD) Upgrade Project (Project)**. The Project will upgrade the existing transmission lines between the Devers, El Casco, San Bernardino, and Vista substations to increase system transfer capacity from 1,600 megawatts (MW) to 4,800 MW. The Project is located primarily within the existing WOD right-of-way in incorporated and unincorporated parts of Riverside and San Bernardino counties and includes modifications to SCE's existing telecommunications facilities.

Distribution, Subtransmission and Telecommunications Improvement Activities:

- Trenching to support relocation of existing and installation of new of underground lines
- Removal and replacement of overhead lines (distribution, conductor and fiber optic) including cable pulling, splicing, stringing and termination
- Topping off existing wood poles; installation, removal and replacement of wood poles; and installation of lightweight steel poles
- Duct bank and vault installation
- Telecommunications equipment and facilities installation
- Subtransmission equipment and facilities installation

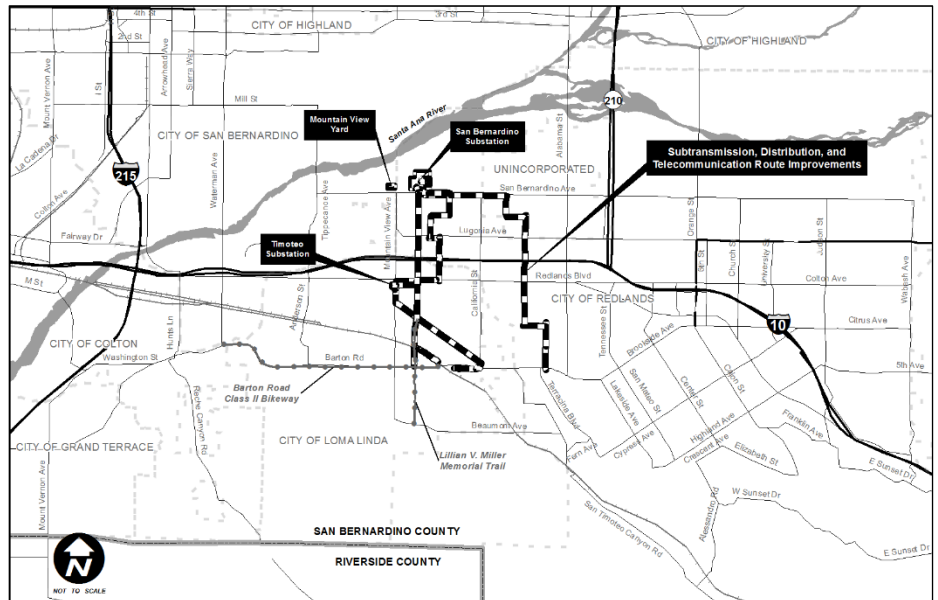

Locations Scheduled for Subtransmission, Distribution, and Telecommunications Improvements from March 2018 through December 2018:

- ❖ San Bernardino Avenue, Almond Avenue, Lugonia Avenue, Redlands Boulevard, Citrus Avenue, Barton Road
- ❖ Nevada Street, Iowa Street, Research Drive, Bryn Mawr Avenue
- ❖ Mountain View Avenue, Mission Road, California Street, Juanita Street

Most work activities will be conducted Monday through Saturday from 6:00 a.m. to 7:00 p.m. Occasionally, as project conditions require, work will occur on Sundays and overnight.

SCE's Commitment and You

SCE understands that construction can potentially be disruptive to daily activities. The company is committed to ensuring the communities' safety and, to the extent possible, minimizing inconvenience. SCE is committed to working with the community to minimize the impacts of this Project and will use its best efforts to schedule construction activities to avoid heavy traffic periods, including major holidays.
